Here at Angola Prison, we have 5000 acres of pasture and almost 2000 head of cattle that these horses are used to tend to. "Sybil" was trained and ridden by one of our top ranch hand inmates at Angola Prison. She is only a 3-year-old but has had more riding than most people's 10-year-olds. She has been handled since birth and is very sweet. Don't let her size fool you. She stands 14 hands but will handle cattle like she is a 1400-pound gelding. Sybil has sorted, doctored and roped cattle in the pasture and in the pens. She has a rocking chair lope that you could sit on all day. Sybil will never let you down. Here at Prison Enterprise we are very proud of this mare because of her athletic ability and her great mind. She gets her color from our great Reined Cow horse sire Cruzin Riptide by Cruze Mode.

Whether you put him back in training, transition him into sorting, or enter him in AQHA Ranching classes, he has the foundation and talent to succeed. The only reason for selling is that I recently purchased a finished show horse. His papers include NCHA Hall of Fame bloodlines.

BUCKSKIN GELDING
CONSIGNER:**

He's a 14 year old 55" buckskin gelding that is one hand broke and very gentle. I bought this little horse from a family that were not horse savvy people. They purchased the little horse from a dude ranch operation for their daughter to ride and participate in 4H. Once the daughter started playing sports she lost all interest in horses. I went and bought all their tack and horses. They told me the little horse was involved in an accident when he was really young and had some of his teeth broken and some knocked out. They had a vet to correct his mouth so that he could eat. As you can see he is fat as can be and has no trouble eating.
